

A COMMUNITY OF PAPER LOVERS

The Design & Paper blog, launched in 2012, celebrates all topics connected to design and paper. We created it to share our passion for great design, creative papers, and printing with the paper-lovers community.

Design & Paper also serves as an interactive platform for creatives who are welcome to share their work with us. On our blog, you can find carefully curated content featuring designers, illustrators, creatives and artists, information on upcoming industry trends, and hot new paper designs, printing and finishing tips as well as events from the paper world. We also share insights directly from leading professionals: interviews with paper manufacturers, designers, artists and printers, confessions from the paper world.

Design & Paper came to life as an initiative from the Europapier Group. In 13 countries Europapier's customers simultaneously enjoy the expertise and prestige of an international group coupled with local, in-depth knowledge.
